Can also be closed early. The sales should however be for cash only. The disposal of the stock would minimise the further loss on the supply of fodder to the affected areas.

From the weekly reports received from the Dy of Agre it is found that the sales are indeed very poor and this is a clear indication of the improvement as regards the availability of fodder in the several affected areas.

FROM

LESLIE C. COLEMAN, ESQ., M.A., PH.D.,
DIRECTOR OF AGRICULTURE IN MYSORE,
BANGALORE.

K. V. Anantaraman, Esq., B.A.,
Offg. Secretary to the Govt. of Mysore,
Revenue Department, Bangalore.

SIR,

Sale of Fodder at Fodder Depots.

I have the honour to state that in connection with the sale of fodder in depots under the control of this Department, sales have heretofore been restricted to bona fide ryots and the amount sold to any one purchaser at a time has been restricted to a value of Rs.25/-.

We have still in our depots a total quantity of fodder amounting to approximately 300 tons. As the seasonal conditions have greatly improved and as the sales recently have been small I consider these restrictions should be relaxed so as to enable us to reduce our stock. I believe there is a certain amount of risk in doing this as if there is any failure of the North East Monsoon we shall have the fodder difficulty again upon us. However I consider this risk should be taken.

While the two Government Orders dealing with the sale of fodder, viz. Government Order No.300-11/D.9-23 of the 21st Jan. 1924 and Government Order No.284-95/D. of the 18th January 1924 do not specifically impose these restrictions they certainly imply that sales of fodder shouldbe confined to ryots. I have therefore the honour to request permission to sell to townspeople as well and to relax the restriction as regards quantity sold to one purchaser. I believe orders are hardly required on the second point as the Government orders referred to do not impose such restrictions.

I have the honour to be,
Sir,
Your most obedient servant,

L C Coleman

Director of Agriculture

G. O. No. 284-95—D., dated 18th January 1924.

Special facilities to the poorer classes of people to secure sufficient supply of paddy straw.

Passes orders granting —— of the channel area.

READ—

Government Order No. 156-214—Dis. 9-23-6, dated the 10th January 1924, in regard to the supply of fodder from the channel tracts of the Mysore District, to the affected places in the Tumkur and Kolar Districts.

ORDER No. 284-95—D., DATED 18TH JANUARY 1924.

In paragraph 9 of the above order, Government directed that the paddy straw collected in the channel area should be sold at cost price including transport charges up to the Depots. It is necessary to ensure that the whole quantity is not taken up by rich people and that special facilities should be afforded to the poorer classes to secure a sufficient supply for their requirements. Government therefore direct that, in the case of raiyats who pay Kandayam of Rs. 100 and above, the full price including the cost of transport to the place of delivery, should be realised before actual delivery of the fodder. In the case of raiyats who pay Kandayam of Rs. 25 and below, the price need not be insisted to be paid on delivery, but may be treated as a Takavi Loan to be collected in two annual instalments. This concession, it is hoped, will encourage the poorer classes also to secure a supply of the fodder.

2. The Agricultural Department will decide the centres at which the fodder Depots should be opened in the Kolar and Tumkur Districts, and the Deputy Commissioners of these districts are requested to ascertain the quantities that may be required in such centres; and arrange for indents being sent by the Amildars to the Director of Agriculture. The Revenue Department will be responsible to see that fodder is supplied only to the proper persons and they should also keep proper accounts under the two systems of sales separately.—(1) Sales for cash payments and (2) sales in which the amounts are treated as Takavi Loans.
